David Dinakar is the Chief Technology Officer at Selendy Gay and has been with the Firm since its inception. He is responsible for all aspects of Information Technology at the Firm including IT Infrastructure Architecture & Design, IT Operations & Helpdesk Support, Teleconferencing & Remote Work Support, Cybersecurity, Vendor Relationship Management, and the ISO 27001 Audit and Certification processes.

David has over 25 years of experience in directing strategic technology planning and operations for several multinational firms. He previously held executive leadership positions in Information Technology at the University of Denver, Newmont Mining Corporation, Grand Heritage Hotel Group, Gem Companies, Ciber International and Symmetrix in the United Kingdom.

David served on the Board of Directors at the Indo-American Association and Denver's Sister Cities International to support the mission of creating relationships between people from different cities around the world and to promote Peace through People. He is also a member of the Golden Key International Honor Society and the Tau Alpha Pi National Honor Society for Engineering Technologies.
